Continuation of 3. NOTE: In the response to the previous office action, applicant proposed an amendment. Since the amendment includes new limitations that would require further consideration and search. Thus, the proposed amendment will not be entered to the application.

Continuation of 11. does NOT place the application in condition for allowance because: In the response to the previous office action, applicant argued that the silicone vessel or ampoule of Pickhard is not suitable for holding a fluid handling medium that contains cells. This argument is not persuasive since there is no evidence provided that the vessel or ampoule device of Pickhard is not suitable for the cell and handling medium. Since the proposed amendment has not been entered, the argument based on the new limitations is moot. The argument presented in the reponse is mainly the argument of counsel and is unsupported by evidence or declarations of those skilled in the art. Attorney argument is not evidence unless it is an admission, in which case, an examiner may use the admission in making a rejection. See M.P.E.P. § 716.01(c) for examples of attorney statements that are not evidence and that must be supported by an appropriate affidavit or declaration.

Based on the discussion above, the proposed amendment would not place the application in condition for allowance.
